Strong collaboration, problem-solving skills, and experience with Generative AI. ```

Projects

Weather App [Live Demo Link](#) [Github Repo Link](#)

HTML5 CSS3 JavaScript

Responsive Web Design

- Developed a weather application providing current conditions and forecasts for multiple locations.
- Utilized HTML5, CSS3, and JavaScript to build an intuitive and responsive user interface.
- Implemented search functionality to access weather data for different locations.
- Ensured cross-browser compatibility and mobile responsiveness.

KFC CLONE [Live Demo Link](#) [Github Repo Link](#)

HTML5 CSS3 JavaScript Git

- Created a full-featured clone of the KFC website with functionalities for sign-up and sign-in.
- Used HTML5, CSS3, and JavaScript to develop responsive and visually appealing web pages.
- Tracked records of user activities and visualized them via graphs and charts.
- Leveraged Git for version control in the development process.
